

Customer: Prolintas

Opportunity: TCS Cloud Modernisation POC

Owner: Spyros

Approval: Draft

Version: DQE 0.1

Sector: Other

Deal Value: RM 1M - RM 5M

Timeline: 3-6 months

Generated: 27/05/2026, 10:26:40 pm

Decision: Proceed With Caution

Weighted Risk Score: 2.57

Selected Services: 5

Capability Score: 3.80

Risk Breakdown

Development Risk: 2.25 (35%)

Time Risk: 2.75 (35%)

Operations Risk: 2.75 (30%)

Capability Score: 3.80 (alignment)

Score Explanation

- Score is controlled because no individual risk factor is currently marked high-risk.
- Time Risk is the largest risk driver at 2.75.
- Capability alignment is helping offset delivery risk with an overall score of 3.80.
- Development Risk has the strongest weighting at 35%.

Recommendation

Proceed with caution: address flagged risks before committing, confirm delivery capacity, secure management sign-off on SLA commitments, and add a 15-20% contingency buffer. Deal notes indicate: Demo case for Transformation KPI: TCS cloud modernisation and smart operations readiness. Key risks include vendor dependency, scope clarity, timeline feasibility, and operations/SLA handover. This can later be replaced or augmented with AI-generated narrative using the same structured inputs.

Risk Flags

- Skill gap risk is within acceptable range.
- Deadline risk is manageable.
- Resource availability is adequate.
- SLA commitments are feasible.
- Customer IT maturity is manageable.
- Capability level is sufficient for this deal.
